Advanced Internet Intelligence & Online Investigations

OCT. 31-NOV. 1, 2019 | VANCOUVER, BC

Special

In today's information-based economy, online research and analysis skills are essential requirements at all levels of an organization, in both the public and private sectors.

Aimed at managers, frontline investigators, researchers, and analysts alike, this advanced two-day training program will provide detailed instruction on effectively using the internet as an Open Source Intelligence, research, and investigation tool.

Demonstrating advanced search and analysis techniques for mining Web-based and social media information, this comprehensive training program will also examine a number of case studies that will focus on highlighting and correcting potential pitfalls that can compromise investigative or intelligence gathering efforts. As an additional training component, essential privacy tools for ensuring data, communication, and online security will be demonstrated, as well as techniques being used by the criminal element to conceal their identity, location, and illegal behaviour.

Learn how to generate relevant, timely, and actionable intelligence, assess and manage risk, maximize opportunities, assure compliance, and manage reputation. This highly-acclaimed advanced OSINT training program will teach you how to *find better online information, in less time, at less cost, with less risk™*.
