# Social Media Intelligence & Investigation

Delivered in partnership with:

Oct. 15-16, 2022 | Remote Delivery | 1000-1800 EDT (1400-2200 UTC)

Social Media Intelligence (SMI or SOCMINT) is processed information, sourced from online social platforms and applications that facilitate and enable the collecting, monitoring, and analysis of up-to-date online sentiment and social commentary. The rich and varied information available from social platforms may be live or historical, opinion or fact, text or multi-media, proprietary or crowd-sourced; depending on the data provided by each source, and an investigator's ability to cross-reference the data across platforms and tools, a comprehensive profile of an individual, location, or event can often be built quickly and accurately.

To recognize, collect, and leverage the value of social platform-sourced information, research and investigative professionals must fully understand the limitations, restrictions, and legal implications of obtaining, and utilizing, such information in a manner that user privacy expectations, license agreements, and other legal limitations are not violated.

**Social Media Intelligence & Investigation** will introduce research and investigative professionals to a variety of essential tools and techniques necessary to locate, collect, and utilize social platform-sourced information, and introduce investigators to the considerations and implications of leveraging this type of information safely and appropriately.

## ABOUT TII

We are **thought leaders** who, since 1997, have been developing and delivering internationally acclaimed training products specific to the needs of our clients, in both public and private sectors.

As experts in Open Source Intelligence (OSINT), we are a **multi-disciplinary**, international team of seasoned professionals with **extensive experience** in front-line intelligence and investigative operations.

We are committed to the principles of **knowledge, integrity, and excellence** in everything we do. We are **passionate** and **innovative educators** who deliver highly-acclaimed, **world-class training** programs that provide direct and tangible benefit to our clients across their entire organization.

From law enforcement and the intelligence community, to military and government agencies within the Five Eyes and beyond, from financial institutions and manufacturers, to petrochemical and pharmaceutical corporations within the Fortune 500, we **listen** to our clients and provide innovative **training solutions** specific to their needs.

As professional facilitators, we provide outstanding customer experiences that **inspire, enlighten, and stimulate**. We foster **creative solutions** for complex problems, while working within defined policy and legislative frameworks.

For **over two decades**, we have delivered training to **tens of thousands** of students in various formats, on every major continent. Our continued international reach exposes us to a myriad of practices, and as we impart knowledge, we also learn from our clients and use what we learn to continually innovate and improve.

We are **passionate** about educating, innovating, and helping our clients reach new levels of **success**, and most importantly, we believe in using what we know to make the world a **safer** place.

*In a world where uncertainty is sometimes the only certainty, and accelerating change is the norm, we recognize that success depends not just on technical best practices and the application of best-of-breed products, superior critical thinking skills, in addition to effective logical and creative thought processes, are essential to achieve maximum benefit and avoid failure.*

*Utilizing proven adult learning principles, and with an approach that is always flexible, our curricula incorporates not just best practices, but key behavioural science elements essential for the success of our clients.*
