2030 CTI

Critical Thinking for Investigators

April 20-21, 2020 | Vancouver, British Columbia

In an age of overwhelming misinformation, disinformation, deception, and propaganda, critical and logical thinking skills are more essential than ever to determine fact-from-fiction, and ultimately make the best possible decisions. While we are called upon to use our critical and logical thinking skills on a daily basis, most of us are simply not good at it — we are all subject to a range of biases and thinking mistakes that we may not be aware of; traditional “common sense” is just not enough.

A curriculum like no other, developed with over two decades of training delivery and development experience in both the investigative and operational intelligence spheres, this internationally-acclaimed course will provide the essential skills required to accurately assess our expanding information landscape, in order to get closer to the truth and produce high-quality, accurate, intelligence products.

Utilizing an engaging experiential learning approach to critical thinking, and incorporating an Open Source Intelligence (OSINT) focus, attendees will learn how to deconstruct problems, ask the right questions, challenge assumptions, examine different viewpoints with greater clarity, and make better decisions more efficiently. This sought-after course will also introduce a number of case studies that highlight both successes and failures in real-world investigations, research projects, and intelligence operations to reinforce core training concepts.

LEARN ABOUT

- Critical thinking skills and their workplace value in both the private and public sector
- Identifying and applying key logical and critical thinking concepts, including linear, creative, and lateral thought processes
- Developing more effective research and analysis strategies
- Using link analysis and Non-Obvious Relationship Analysis (NORA) to draw valid inferences
- Identifying the components of, and producing, valid and sound inductive and deductive arguments in standard form
- Effectively utilizing a variety of freely available tools for better organizing your investigative research and intelligence projects
- Properly archiving, compiling, and analyzing internet-sourced OSINT in order to produce better quality intelligence reports and products

TECHNICAL REQUIREMENTS

Attendees are required to bring a **laptop capable of accessing the internet and installing/downloading basic software** to the course. Attendees can be provided with a list of software to be downloaded in advance of the course upon request.

” Maintaining an unrivaled reputation as the global leader in the provision of online research, internet investigation, and OSINT training, our primary goal is to provide our delegates with the very best learning and networking experience the industry has to offer, facilitated by recognized experts, with a wealth of industry knowledge and resources at their fingertips.

TII'S FREE RESOURCES KNOWLEDGE BASE

TII's extensive global network of online research and investigative professionals has created, and maintains, a huge collaborative database of the world's best tools and resources for online Open Source Intelligence (OSINT) and research professionals, in addition to research "cheat sheets" and other investigative aids.

Continually improved and updated, the **FREE Resources Knowledge Base** contains thousands of resources for locating people, places, social media content, corporation information, live streaming data and online communications, images, and videos, in addition to other essential investigative resources, such as geo-location tools, proxy servers, privacy guides, and much more.

TII's **FREE Resources Knowledge Base** is the definitive gateway to the best online research resources available, accessible through a custom designed, powerful, and interactive interface.

COURSE TERMS & CONDITIONS

1. Three or more delegates from the same company are entitled to a 10% discount. This discount is only applicable to the standard pricing.
2. Registrations are confirmed with written confirmation via email. Should the delegate not receive an email, it is the delegate's responsibility to contact TII to confirm their seat.
3. Payment must be received in full in advance of the course.
4. Delegates are responsible for their travel expenses in traveling to the course, including hotel accommodations. All travel and accommodation arrangements should be made by the delegate.
5. Cancellations received 30 days before the course date will receive a refund, less a \$100 administration fee. After this date, the full fee must be paid, but substitutions may be made at any time.
6. TII reserves the right to cancel or change course dates, instructors, content, or conditions without prior notice.

Disclaimer: Please note that our courses do NOT provide guidance on law and legislation in relation to information gathered during the course of an online investigation. Please ensure that you are familiar with appropriate legislation governing collection, analysis, dissemination, and storage of information obtained online relating to individuals, groups, and organizations prior to proceeding with any online investigation.
