TII Quick Guide To: Uniform Resource Locators (URLs)

A URL, or Uniform Resource Locator, can be understood as an *address* to a particular site, page, or document located on the *World Wide Web*, or simply a *Web address*.

The following diagram depicts the structure of a URL as commonly encountered on the Web:

TODDINGTON INTERNATIONAL INC. - The Industry Leaders

Call: +1.604.468.9222 Email: training@toddington.com

www.TODDINGTON.com
